

Mission

Advanced Health Outcomes (AHO) is a national Healthcare Accountability and Measurement consulting firm that improves population health outcomes with patient-centric and provider-friendly products and services. We are authorities in healthcare policy and programming, evidence-based clinical quality measure (CQM) development, implementation, and endorsement, and are clinicians, and terminology, coding, and informatics specialists. We offer practice-based accountability solutions that reflect real-world care delivery and the unique population characteristics and needs. AHO is a trusted partner to many public, private, and non-profit clients delivering products and services that exceed their content, timing, and budget expectations.
