

Dr. Sharon Hibay
AHO CEO & Principal

Mission

Advanced Health Outcomes (AHO) is a Healthcare Accountability and Measurement consulting firm with a mission of improving population health outcomes with patient-centric and provider-friendly products and services. We are authorities in healthcare policy and programming leads, evidence-based medical experts, clinical quality measure (CQM) developers, implementers, and endorsers, as well as terminology, coding, and informatics experts. AHO offers practice-based accountability solutions that genuinely reflect today's care delivery environment, care settings, and patient needs. AHO teams with many public, private, and non-profit clients, and partners, offering products that exceed our clients' content, timing, and budget expectations, with trusted services and capabilities for your organization!!!

Services

- **Strategic Partnering & Proposal Preparation** with mission-driven and coveted industry leading partnership management for strategic planning, business development, and opportunity responses.
- **Health Policy Advising & Programming** public health policy trending, analysis, rulemaking, and regulatory language authoring supporting accountability program development, implementation, and evaluation.
- **Measurement Science, d/e/CQM Development & Implementation** with full lifecycle evidence-based and high-value d/e/CQMs in QDM, CQL, and HL7® FHIR® specifications development, testing, and implementation for HHS, MUC, CBE, and QCDRs in technical assistance to CMS, AHRQ, TJC, NCQA, ABIM, ACEP, AAN, AND, registries, and others.
- **Practice & Documentation Improvement** in evidence-based improvement methods, patient center medical home (PCMH), rapid-cycle sampling, and iterative "tests of change" to improve EHR mapping, clinical documentation, workflows, team communication, patient engagement, and care coordination of practice processes and clinical data.
- **Expert Convening & Stakeholder Engagement** of 15+ years of public and private technical expert panels (TEP), technical advisory groups (TAG), steering committees, and focus, survey, and user groups development, convening, and participation available for clients' accountability and improvement needs.
